

# How to Update your saved password for Microsoft Edge

Wednesday, August 25, 2021 11:15 AM

## Problem:

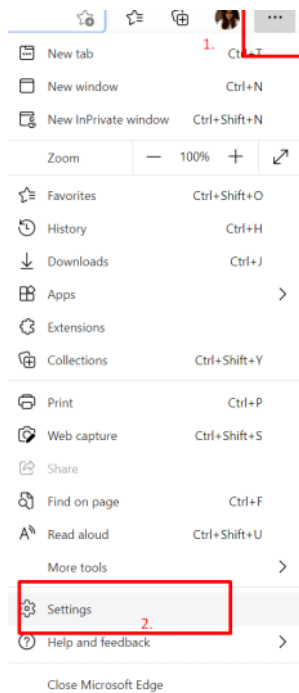

User changed their password and is unable to change it in their password manager in the Microsoft Edge browser.

## Resolution:

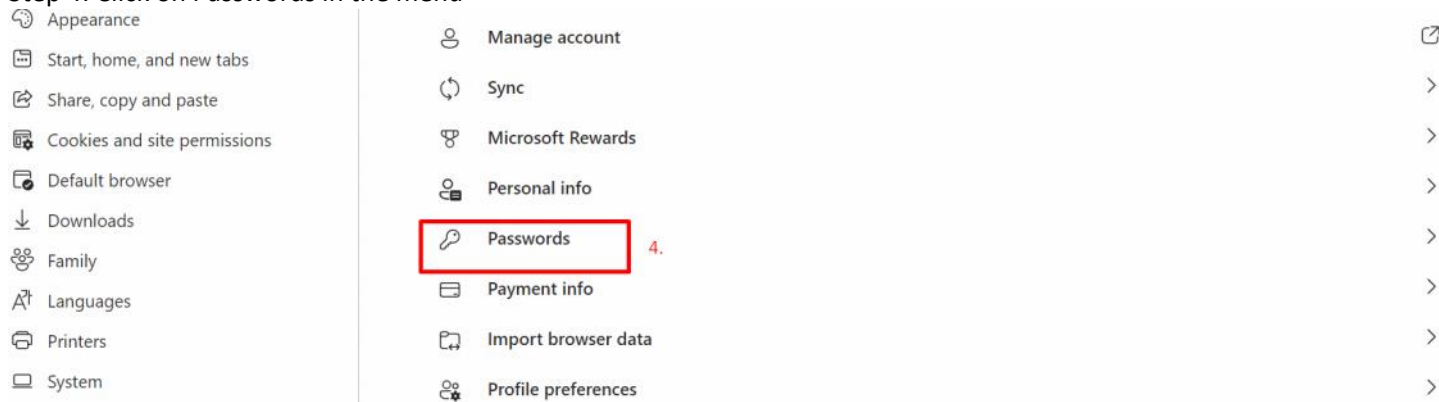

Step 1: Open the Edge Browser

Step 2: click on the three dots in the right hand corner

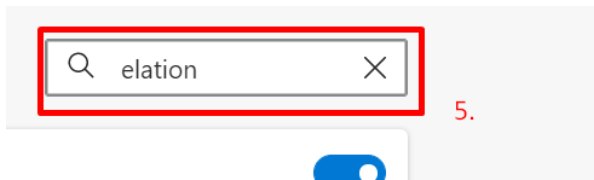

Step 3: Select **Settings** from the drop down menu

Step 4: Click on Passwords in the menu

Step 5: In the search bar at the top right of the page type in relation

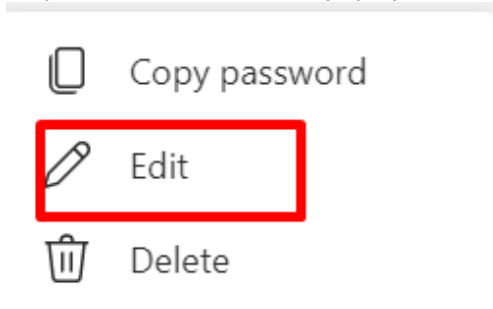

Step 6: Here you can view the username you have saved, as well as click on the icon shaped like an eye to view the saved password. **\*note: you may be prompted to enter your windows password or however you sign into your desktop to view and edit your password\***

Step 7: Click on the three dots on the right

Step 8: Click on edit on the pop up menu

Step 9: **\*note you may be asked for your sign on again. Even if you already did it to view your password\*** In the pop up menu click on the eye icon to view your password. Here you can delete and type in your new password.
